*Sheer Pleasure for Summer Reading... Filled with Unexpected Twists and Turns*

HOUSTON, TX (2007) – Houston Author **Louise Gaylord** announces the release of her third book, ***Julia Fairchild***. The book is centered on protagonist, Julia, a thirty-year-old New York woman whose life is turned upside down after a near-miss lightning strike. Raised in upper-class Manhattan society, Julia has settled in small- town New Mexico, created a prospering counseling practice, and is preparing to marry her love, Mac Brantley, a successful doctor and younger son of a prominent local family.

Julia's is a world where readers will love to spend their time. This timeless pleasure and perfect summer indulgence introduces the reader to a spiral of events which sweeps them up in a web of intrigue, lust, and bitter family feuds.

The richness of the characters is evident from the beginning and takes on even more depth as the book continues. Julia's exploration of herself and the future she once thought so secure is engaging, intriguing...and full of surprises.

"Louise Gaylord once again delivers a top-notch page turner with vivid characters, tight plot-lines and a protagonist everyone can relate to. *Julia Fairchild* is by far one of Gaylord's best books." *USA Book News*.

Louise Gaylord divides her time between Houston, Texas, Santa Barbara, California, and the Adirondacks. Her third Allie Armington mystery, *Spa Deadly*, is slated to be released in late 2007. Louise is currently working on the fourth book of the series.
